INDEX

Acetone, ethyl alcohol, butyl alcohol, chloroform, ether, and urethane, An analysis of the antagonistic and the synergistic action of, on sulfanilamide inhibitions. Abstract, 110

Acidity and hydrogen-ion concentration relationships among the lactic acid bacteria. Abstract, 221

Actinomyces coelicolor and *A. violaceus-ruber*, The pigment production of, 133

Actinomycetes, The nomenclature and classification of the, 337

Actobacter, Motility in the genus, 394

Aerobacter cloacae, Studies on strains of, responsible for acute illness among workers using low-grade stained cotton. Abstract, 217

Aerobic mesophilic bacteria from soil, Cellulose decomposition by. I. Isolation and description of organisms, 273

—. II. Biochemical studies on filter paper and cellulose preparations, 281

—. III. The effect of lignin, 291

Agar contamination, Studies on, as affecting the sterilization of culture media, 269

—,Recovery of, from used media, 396

Agglutination and precipitin reactions, A comparison of the value of the, in the serological typing of group A streptococci, 117

Agglutinins in swine blood serum following the feeding of bovine fetal and placental tissue infected with *Brucella abortus*. Abstract. (No abstract), 223

Air analysis, sanitary, Bacteriologic procedures in, with special reference to air disinfection, 549

— disinfection, Bacteriologic procedures in sanitary air analysis, with special reference to, 549

Aisenberg, Myron S., and Grubb, Thomas C., 311

Alderman, Ilo, and Aronson, Joseph D., 261; Abstract, 218

Allantoin, *Streptococcus allantoicus* and the fermentation of, 251

Anaerobes, Fibrinolysins from gas gangrene, 475

Anaerobic bacteria, On the enrichment and purification of chromogenic spore-forming, 507

—, Recent developments concerning the, and their activities, with particular reference to the tetanus and gangrene organisms. Abstract, 577

—, Use of dried tissue in beef heart medium for, 215

Anaerobic conditions, An improved technic for growing microorganisms under, 373

— culture tube, An, for determining CO_2/H_2 ratios of coliform bacteria, 89

— microorganisms, An improved technic for the cultivation of. Abstract, 314

Anderson, A. A., 396

Andersen, Thomas F. Abstract, 110

—, Luria, S. E., and Delbrück, M., 57

—, Mudd, Stuart, and Heinmets, Ferdinand, 205

—, Mudd, Stuart, and Polevitzky, Katherine, 15

Anigstein, Ludwik, Bader, Madero N., and Young, Gerald. Abstract, 218

Antibiotic substance (penatin), The action of, on bacteriophage. Abstract, 110

— substances elaborated by an *Aspergillus flavus* strain and by an unclassified mold, Note on. Abstract, 109

— substances, The nature and mode of action of. Abstract. (No abstract), 222

Antibodies, The occurrence of natural, against certain yeast-like fungi. Abstract, 486

Antisera for *Paramecium aurelia*. A technique for the production of. Abstract, 576

Antoine, L. D., and Hargett, M. V., 525

Aronson, Joseph D., and Alderman, Ilo, 261; Abstract, 218

Arsenic, The effect of fever on the distribution of, in rabbits following the intravenous administration of marphasen. Abstract. (No abstract), 574

Aspergillus flavus strain, Note on antibiotic substances elaborated by an, and by an unclassified mold. Abstract, 109

Azotobacter, A Study of the relationship of growth energy source to respiration in. Abstract, 485

—, Flagellation of. Abstract. (No abstract), 574

—, Measuring the growth of. Abstract, 485

Bacillus brevis, Formation of tyrothricin in submerged cultures of, 83
Bacterial morphology as shown by the electron microscope. VI. Capsule, cell-wall and inner protoplasm of pneumococcus, type III, 205
Bactericidins, Natural, in the plasma of the domestic fowl. Abstract, 575
Bacteriophage, The action of an antibiotic substance (penatin) on. Abstract, 110
Bacterium columbensis Castellani, The identity of, 79
Bader, Madero N., Aningstein, Ludwik, and Young, Gerald. Abstract, 218
Bagg, Josephine V., and Pederson, Carl S. Abstract, 221
Baird, Elizabeth A., Wood, A. J., and Keeping, Frances E., 106
Barker, H. A., 251
Beal, Grace A., and Schuhardt, V. T. Abstract, 219
Beef heart medium, Use of dried tissue in, for anaerobic bacteria, 215
Bellamy, W. D., Campbell, J. J. R., and Gunsalus, I. C. Abstract, 573
— and Gunsalus, I. C. Abstract, 573
Bergner, S., Kligler, I. J., and Grossowicz, N., 399
Bernheim, Frederick, and Bernheim, Mary L. C., 225
Bernheim, Mary L. C., and Bernheim, Frederick, 225
Biochemical studies on filter paper and cellulose preparations. Cellulose decomposition by aerobic mesophilic bacteria from soil. II, 281
Biological preparations, Machine for shell freezing small volumes of, 525
— research, Application of the electron microscope to. Abstract, 576
Blair, John E. Abstract, 313
Blevins, Anne, MacNeal, Ward J., and Pacis, Marcello. Abstract, 111
Blood, Cultivation of *Brucella* from the, 333
Boak, R. A., Stokinger, H. E., Dorn, F. L., and Carpenter, C. M. Abstract. (No abstract), 574
Bohls, S. W., and Irons, J. V. Abstract, 218
Borman, Earle K., and Wheeler, Kenneth M., 481
Braun, Armin C., and White, Philip R. Abstract, 109
Braun, Werner. Abstract, 222
Breed, Robert S. Abstract, 221
—. Abstract. (No abstract), 574
Brewer, John H., 395
Broadhurst, Jean, MacLean, Estelle, and Taylor, Inez. Abstract, 110
Brooks, Robert F. Abstract, 574
Brown, Helen J., Reed, G. B., and Orr, J. H., 475
Brucella abortus, Agglutinins in swine blood serum following the feeding of bovine fetal and placental tissue infected with. Abstract. (No abstract), 223
—*abortus*, Studies on the nature and control of dissociation in. Abstract, 222
—, Cultivation of, from the blood, 333
—, Preliminary observations of growth of selected strains of, in the McCullough and Dick mineral base medium. Abstract, 219
— *spp.*, Variation of, with reference to the bacteriostatic action of dyes. Abstract, 219
Bucca, Matthew A., 151
Burkholder, W. H. Abstract. (No abstract), 574
Butler University, Bacteriology at. Abstract, 576
Butyric acid bacteria from olives, Characteristics of, 315
Buxbaum, Lillian, and Fiegoli, Nicholas F., 543
B-vitamin, The, requirements of the propionibacteria, 99

Caminita, B. H., Schneiter, R., Kolb, R. W., and Neal, P. A. Abstract, 217
Campbell, J. J. R., Bellamy, W. D., and Gunsalus, I. C. Abstract, 573
Cancerous properties, Some evidence on the etiology of, as exemplified in plant cells. Abstract, 109
Cantor, A., and Schobert, William, 203
Caroline, Leona, and Schade, Arthur L., 463
Carpenter, C. M., Plack, Jane, and Stokinger, H. E. Abstract, 220
—, Stokinger, H. E., Dorn, F. L., and Boak, R. A. Abstract. (No abstract), 574
Casein, Digestion of, by staphylococci on milk agar containing serum, 392
Cellulose decomposition by aerobic mesophilic bacteria from soil. I. Isolation and description of organisms, 273
—. II. Biochemical studies on filter paper and cellulose preparations, 281
—. III. The effect of lignin, 291

Central New York Branch, S. A. B., Proceedings, 220, 573
Centrifuge, Separating soil algae from other organisms by means of the. Abstract, 222
Chlormercuri carvacerol, The inhibitory effect of on the growth of pathogenic fungi. Abstract, 487
Choriomeningitis, Association of the virus of lymphocytic, with erythrocytes of infected animals, 482
Chromogenic spore-forming bacteria. On the enrichment and purification of, 507
Clifton, C. E. Abstract. (No abstract), 223
Clostridia, Effect of various concentrations of iron on the production of riboflavin by certain. Abstract, 575
Clostridium acetobutylicum, On the use of hydrolyzed wheat mash for the enrichment of, 214
Clostridium tetani, Growth requirements of. II. Factors exhausted by growth of the organism, 559
—. III. A "synthetic" medium, 563
Coliform bacteria, An aerobic culture tube for determining CO_2/H_2 ratios of, 89
Collins, Carolyn, Sherwood, Noble P., and Tanner, William A. Abstract, 485
Conn, Jean E., 133
—and Rahn, Otto. Abstract. (No abstract), 221
Corynebacterium and *Neisseria*, Two agarless media for the rapid isolation of, 233
—, Taxonomy of certain members of the genus, from animal sources. Abstract, 574

deShazo, Thelma. Abstract. (No abstract, 219
Shell freezing small volumes of biological preparations, Machine for, 525
Sherwood, Noble P., Tanner, William A., and Collins, Carolyn. Abstract, 485
Shigella, A primary division of the genus, based on the trimethylamine test, 106
— cultures, Further studies on the Eijkman reactions of, 105
Shwartzman, Gregory, 482
Silage making, The results of some experiments where salt was added in. Abstract. (No abstract), 222
Slavin, Howard B., 113
Smith, F. R., 369
Sodium azide (NaN_3), The use of, and crystal violet in a selective medium for streptococci and *Erysipelothrix rhusiopathiae*, 343
Soil algae, Separating, from other organisms by means of the centrifuge. Abstract, 222
Sokhey, S. S., and Habbu, M. K., 25, 33
Solid surfaces, The effect of, upon bacterial activity, 39
Sorenson, R. M. Abstract. (No abstract), 486
Speck, M. L., and McBee, R. H., 89
Spirocheticidal action and reagin titer of sera of rabbits infected for varying periods of time with *Treponema pallidum*, A comparison of the. Abstract, 485
Spore germination, The accelerating effect of sublethal heat on, in mesophilic aerobic bacteria, 513
Spotted fever virus, Protective effect of separate inoculation of, and immune serum by intradermal route. Abstract, 218
Stahly, Grant L., and Gaines, Sidney, 441
Stanier, R. Y., 213
Staphylococci, Digestion of casein by, on milk agar containing serum, 392
—, Some recent developments in the study of. Abstract, 313
Staphylococcus aureus, Retention of sulfonamide resistance and increased p-amino-benzoic acid production in. Abstract. (No abstract), 217

Stark, C. N., and Seleen, W. A., 491
Starkey, Robert L., and Waksman, Selman A., 489
Stokes, J. L., Foster, J. W., and Woodward, C. R., Jr. Abstract, 109
— and Woodward, C. R., Jr., 83
Stokinger, H. E., Dorn, F. L., Boak, R. A., and Carpenter, C. M. Abstract. (No abstract), 574
—, Plack, Jane, and Carpenter, C. M. Abstract, 220
Streptococci, A comparison of the value of the agglutination and precipitin reactions in the serological typing of group A, 117
—, A note on non-group-A, associated with human infection, 391
— and *Erysipelothrix rhusiopathiae*, The use of sodium azide (NaN_3) and crystal violet in a selective medium for, 343
—, Organic acids as substrates for. Abstract, 573
—, The nutrition of group B. Abstract, 573
Streptococcic bacteriophage: a review. Abstract. (No abstract), 217
Streptococcus allantoicus and the fermentation of allantoin, 251
— *fecalis*, Growth requirements of, for tyrosine decarboxylation. Abstract. 573
— *lactis*. Abstract. (No abstract), 222
— *lactis*. Nutritional studies on. I. An unidentified growth factor found in yeast extract, 369
Streptothricin, Production and activity of, 299
Stuart, C. A., and Rustigian, Robert, 105
Sulfa-drugs, A comparison of the action of, on the growth of a bacterial virus and of its host. Abstract, 574
Sulfanilamide inhibitions, An analysis of the anatagonistic and the synergistic action of acetone, ethyl alcohol, butyl alcohol, chloroform, ether, and urethane on. Abstract, 110
Sulfonamide drugs in the treatment of meningitis, Effective blood and spinal fluid levels of. Abstract. (No abstract), 314
— resistance, Retention of, and increased p-amino-benzoic acid production in *Staphylococcus aureus*. Abstract. (No abstract), 217
Sulkin, S. E. Abstract. (No abstract), 220
Syphilis, The clinical aspects of. Abstract. (No abstract), 486
Tanner, William A., Sherwood, Noble P., and Collins, Carolyn. Abstract, 485
Taxonomic research, Practical values from. Abstract, 221
Taxonomy, A note on the, of *Proteus hydrophilus*, 213
— of certain members of the genus *Corynebacterium* from animal sources. Abstract, 574
Taylor, Inez, Broadhurst, Jean, and MacLean, Estelle. Abstract, 110
Technic, An improved, for growing microorganisms under anaerobic conditions, 373
Temperatures above optimum, Dissociation of the growth of bacterial viruses and of their host by means of. Abstract, 575
—, Optimum and limiting, for the growth of the plague bacillus in broth, 25
Tetanus and gangrene organisms. Recent developments concerning the anaerobic bacteria and their activities, with particular reference to. Abstract, 577
Tetrault, P. A. Abstract, 576
Texas Branch, S. A. B., Proceedings, 218
Thiamine, Antibacterial action of a pyridine analogue of, 483
Thiobacillus thiooxidans, A cytological and microchemical study of, 451
Thompson, Roy C., 99
Throats, human, Increased incidence of virus inclusion bodies in. Abstract, 110
Thurman, D. C., and Moore, Donald V. Abstract, 220
Tooth pulp cavities, Poliomyelitis induced by inoculation of, 311
Townsend, C. T., and Zuch, T. L., 269
Treponema pallidum, A comparison of the spirocheticidal action and reagin titer of sera of rabbits infected for varying periods of time with. Abstract, 485
—, *T. macrodentium* and *T. microdentium*, Bacterial morphology as shown by the electron microscope. V, 15
Trimethylamine test, A primary division of the genus *Shigella* based on the, 106
Trypanosoma cruzi, infection in *Triatoma spp.* collected in Texas, A survey of. Abstract. (No abstract), 219
Tumors, Absence of d-amino acids in the proteins of virus-induced, in rabbits. Abstract. (No abstract), 573
Turbidimetric studies on penicillin inhibition. Microbiological aspects of penicillin. II, 377

Tyrosine decarboxylation, Growth requirements of *Streptococcus* fecalis for. Abstract, 573
Tyrothricin, Formation of, in submerged cultures of *Bacillus brevis*, 83

Vaccine and antiserum, Epidemic influenza. Abstract, 577
Vaughn, R. Abstract. (No abstract), 223
Vaughn, Reese H., 394
—, and Gililland, J. Richard, 315
Virus, A comparison of the action of sulfadrugs on the growth of a bacterial, and of its host. Abstract, 574
— diseases, The laboratory in the diagnosis of. Abstract. (No abstract), 220
—, inclusion bodies, Increased incidence of, in human throats. Abstract, 110
— of lymphocytic choriomeningitis, Association of the, with erythrocytes of infected animals, 482
—, Persistence of the, of St. Louis encephalitis in the central nervous system of mice for over five months, 113
Viruses, bacterial, Dissociation of the growth of, and of their host by means of temperatures above optimum. Abstract, 575
—, Electron microscope studies of bacterial, 57
Vitamin B complex, The growth requirements of *Leuconostoc mesenteroides* and preliminary studies on its use as an assay agent for several members of the, 441
— C, Decomposition of, by bacteria, 351
